TECHNICAL SKILLS

Manual Testing	Selenium WebDriver	Test Strategy & Test Case Design
Automation Testing	TestNG	Bug Tracking & Reporting
Functional Testing	Cucumber (BDD Framework)	Cloud Testing (AWS)
Regression Testing	Maven	Database Testing (SQL)
Retesting	Jenkins	Cross-Browser Testing
User Acceptance Testing (UAT)	Agile Methodology (Scrum)	API Testing (Postman, REST Assured)
Performance Testing	Jira (Defect Tracking & Test Management)	Data-Driven Testing

INTERNSHIP

Intern, SSQUAREIT,Pune

Project-1

Client -Canary Technologies

JULY2024
-DECEMBER2024

Tested Canary Technologies’ Digital Guest Journey Platform, focusing on contactless check-in, digital payments, and guest communication APIs. Designed and automated test cases using Selenium, TestNG, and Postman, ensuring seamless web and API functionality. Implemented a hybrid framework for test automation, integrated with Jenkins for CI/CD, and conducted UAT, regression, and parallel testing. Validated system performance, security, and cross-browser compatibility, collaborating with Agile teams using Jira for defect tracking and sprint planning to enhance overall software quality.

Roles & Responsibilities

- Conducted comprehensive manual and automated testing using Selenium and TestNG to ensure Canary Technologies' hospitality solutions met high-quality standards.
- Designed, executed, and managed test cases for functional, regression, and end-to-end testing to validate Canary's digital guest journey platform.
- Collaborated with Agile teams using Jira for defect tracking and Scrum methodologies to improve testing efficiency and product delivery.
- Performed API testing with Postman to verify seamless integration of Canary Technologies' contactless check-in and digital authorization features.
- Implemented hybrid and data-driven frameworks in Selenium to enhance test automation coverage across multiple hotel management solutions.
- Configured Jenkins and Maven for continuous integration and automated test execution, ensuring reliable deployment pipelines.
- Led UAT and parallel testing efforts to validate Canary Technologies' guest experience enhancements across multiple browsers and devices.

EDUCATION

Bachelor of Technology, DBATU University, Lonere

2021-2024
