Professional Summary

Detail-oriented and motivated **Backend Developer** with hands-on experience in building and integrating scalable backend systems using **Java, Servlets, JSP, SQL**, and REST APIs. Proficient in **Docker, Git, Postman**, and database technologies such as **PostgreSQL, MongoDB**, and **Oracle**. Collaborative team player experienced with **Agile methodologies**, using tools like **Jira, Slack**, and **Google Workspace** for effective communication and project tracking.

Technical Skills

- **Languages:** Java, Python, C
- **Web:** HTML5, CSS3, JavaScript, Reactjs, Bootstrap
- **Backend:** Java Servlets, JSP, REST APIs
- **Databases:** PostgreSQL, MongoDB, Oracle, SQL
- **Tools:** Git, Docker, Postman, Jira, Slack, Google Workspace

Experience

Backend Developer Intern

Cybotronics Solutions | Dec 2024 – Mar 2025

- Developed and deployed real-world backend services using **Java**, integrated with **PostgreSQL** and **MongoDB**.
- Consumed and tested REST APIs using **Postman**; managed version control with **Git**.
- Collaborated in Agile sprints using **Jira** for task management and **Slack** for real-time communication.
- Utilized **Docker** for containerizing applications and improving deployment consistency.

Web Developer Intern

Oasis Infobyte (Virtual) | Mar 2023 – Apr 2023

- Designed and developed responsive landing pages, personal portfolio websites, and calculators using **HTML5, CSS3**, and **JavaScript**.
- Applied **Bootstrap** to enhance UI components and layout responsiveness.

Projects

Mobile Recharge Application

- Created a full-stack application using **Java, JSP, Servlets**, and **SQL** to handle mobile recharge operations.
- Designed interactive interfaces using **HTML/CSS**; handled backend logic with seamless database connectivity.
- Integrated user authentication and real-time recharge flow via backend logic and stored procedures.

CRUD Application

- Built a complete CRUD system with frontend using **HTML, CSS, Bootstrap**, and backend using **Java Servlets & JSP**.
- Enabled operations like create, read, update, and delete with **Oracle Database** integration.

Education

Bachelor of Engineering – Computer Science
Marathwada Mitra Mandal's Institute of Technology, Pune | *2020 – 2024*
CGPA: **8.40**

Class XII – Dada Patil Mahavidyalaya, Karjat (2020) — 62.00%
Class X – Shree Ankheri Devi Vidyalaya, Fakrabad (2018) — 89.40%

Certifications

- **Java Full Stack Developer**

Languages

English, Hindi, Marathi — *Fluent*
