PROFESSIONAL SUMMARY

Motivated and results-oriented Software Developer with a PG Diploma in Advanced Computing and 1+ years of experience designing, developing, and maintaining high-performance web applications. Skilled in React.js, .NET, ASP.NET,MVC Framework, MySQL, and database management. Proven ability to deliver user-friendly and scalable solutions. Eager to leverage technical expertise and problem-solving skills to contribute to a collaborative and innovative team environment.

PRIMARY SKILLS

- **Programming Languages:** C#, React,JavaScript, Java, MySQL, HTML.
- **Frameworks & Libraries:** .NET, ASP.NET Core, React,MVC FrameWork.
- **APIs & Services:** REST APIs, JSON, Webhook, Schedulers.
- **.Net:** Software Development, Web Development.

SECONDARY SKILLS

- **Version Control:** Git, GitHub
- **Additional Tools:** Vs Code,Postman, Android Studio,Automation Anywhere(AA360).
- **Methodologies:** Agile development methodologies .

WORK HISTORY

Software Developer *Calyx Solution UK LTD (**Money Transfer**), Kolhapur*
Feb 2024 – Present
Role and Responsibilities:
  Designed and developed scalable, secure web applications using ASP.NET Framework, C#, JavaScript, AJAX, and MySQL, increasing system efficiency by 25%.
  Implemented RESTful APIs for seamless integration with third-party services, enhancing data flow and reducing system latency by 20%.
  Collaborated with cross-functional teams, including designers and product managers, to deliver user-friendly and visually appealing web interfaces.
  Conducted performance optimization, reducing load times by 30% for critical business applications.
  Wrote clean, modular, and reusable code adhering to SOLID principles and best coding practices.
  Devised and implemented database architectures using MySQL, ensuring efficient data storage and retrieval processes.
  Participated in code reviews, fostering a culture of high-quality development and continuous improvement.

Software Developer | Calyx Solution UK LTD (**Calyx Money**), Kolhapur (May 2024 – Present)

- Developed a comprehensive money transfer application ("Calyx Money") with a React.js frontend and a .NET Core backend.

- Built a travel money platform featuring rate comparisons, currency converters, and insights for optimizing exchange deals
- Led the frontend development, designing and implementing user interfaces for key features, including real-time currency comparison for GBP to major currencies.
- Integrated with backend APIs to ensure smooth application flow and data consistency.
- Contributed to improving user experience and enhancing application performance.

Key improvements:

- Enhanced user experience by providing real-time currency comparison, enabling users to make informed decisions about their transfers.
- Streamlined application flow through efficient API integration and optimized frontend interactions.

Software Developer | Calyx Solution UK LTD (**Money Transfer Web Application**), Kolhapur (Feb 2025 – Present)

Role and Responsibilities:

- Developed the web application UI using React Vite, ensuring a fast and efficient frontend experience.
- Built and maintained backend APIs using .NET Core to facilitate secure and scalable data transactions.
- Integrated frontend and backend components to enhance user experience and performance.
- Conducted testing and debugging to optimize application reliability and speed.

PROJECT DETAILS

Metro Reservation System (React.js, .NET, MSSQL) (March 2023 - August 2023)

- Developed a web application for booking metro train reservations, including functionalities for schedule viewing, seat selection, payment processing, and e-ticket generation.
- Implemented user and administrator interfaces for managing routes, schedules, seat availability, and customer data.
- Utilized React.js, HTML/CSS, JavaScript, .NET, ASP.NET Web API, Entity Framework, Postman, and Bootstrap for development.

EDUCATION

Graduation in Civil Engineering (July 2019 - May 2022)

- Hon. shri. babanrao pachpute vichardhara trust's parikrama college of engineering (CGPA:9.2)

PG-Diploma in Advanced Computing (March 2023 - August 2023)

- Sunbeam Institute of Information Technology, Pune (GPA: 60.38)
